Subject: Proposed Liquor Law

To Representatives on the General Law Committee,

I'm the manager of a small wine shop in Stamford and I'm worried for my job. I've seen many arguments against this law and how it will hurt "mom and pop" stores, but here's one I haven't seen; the law as it exists is meant to protect small stores because of other inequities in the system. We're not allowed to form a buying co-op, we have to buy from State licensed distributors and we have to pay in thirty days, all by State law. If you allow volume discounting and no minimum price the big stores get an unfair advantage.

Please stop this law. Bill Benison
